Rhetoric to Reality:

While it all sounds good, what can we really do?

John BreeChief Evangelist & Chief Risk Officer

Third-Party Risk Management

Third-Party Risk Management (TRPM) is an ongoing evaluation process for organizations that want to manage the risks that occurs with using vendors and outsourcing services and products. A TPRM strategy helps shine a light into areas of potential business risks. MindPoint Group

Third-party risk management (TPRM) is the process of analyzing and controlling risks associated with outsourcing to third-party vendors or service providers. This could include: Unnecessary access to your intellectual property, customer information, or other sensitive data. Upguard

BASIC and KISS

Assess

- Define in-scope areas.
- Identify and classify risk.
- Understand current state - value at risk and likelihood.

Analysis & Scenario Planning

- Sensitivity analysis and plan B strategies.
- Business scenario
 analysis and short-,
 medium-, long-term risk
 mitigation plan.
- Develop processes & tools for data gathering and publishing reports.

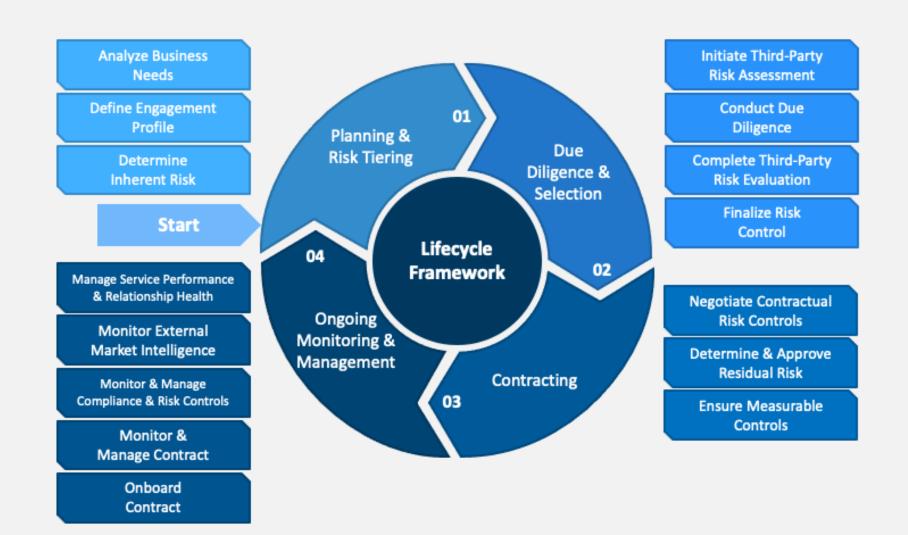

Program Management

- Monitor and track progress.
- Drive action and internal/external communications to reduce risk.
- Contingency measures, business continuity plan.
- Ongoing third-party compliance program.

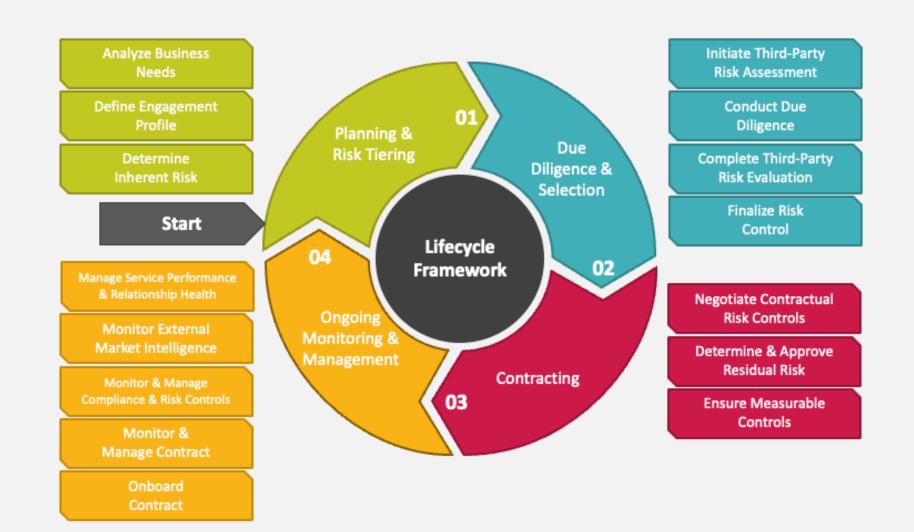

Due Diligence Phase

Implementation and Management

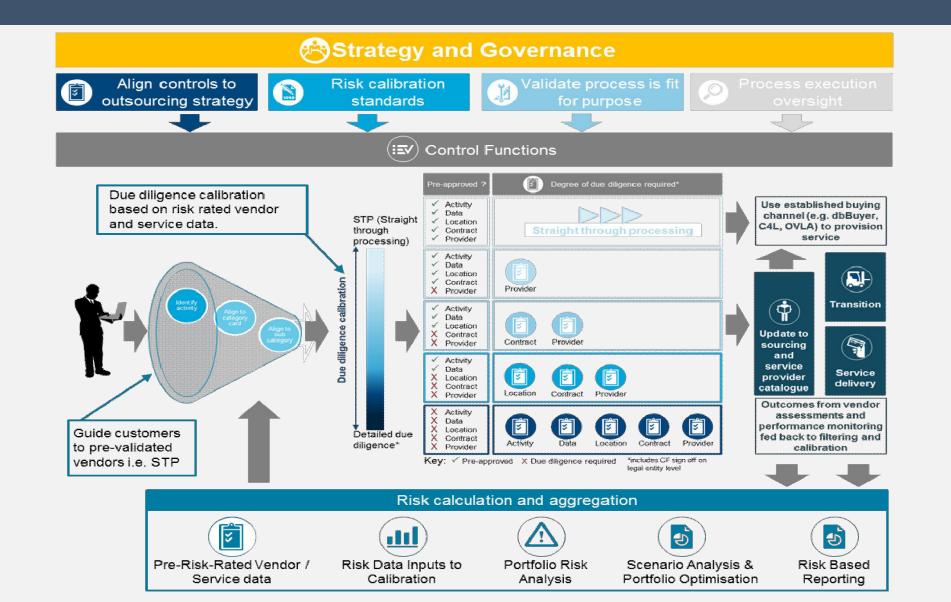

Jazz it up!

Getting Serious...

Over the top... Yup, it was me!

The Lifecycle

The REAL lifecycle... Hold on

Planning Phase

- 1. Business unit or Function group identifies a new product, enhancement, or process efficiency that will have a material positive impact
- 2. Internal, External, or a combination of operational availability is determined
- 3. Potential Project Team is scoped, and regulatory mandates identified
- 4. Business case with estimated development and maintenance as well as projected ROI

Initial Management Approval

...And

Design Phase

- 5. Project Team finalized
- 6. Non-negotiable minimum requirements, compliance, and controls established
- 7. Business/Function Requirements Document completed and approved
- 8. Business/Function Technical Requirements Document completed and approved

Business case revised, approved, budget assigned.

...And

Procurement Phase

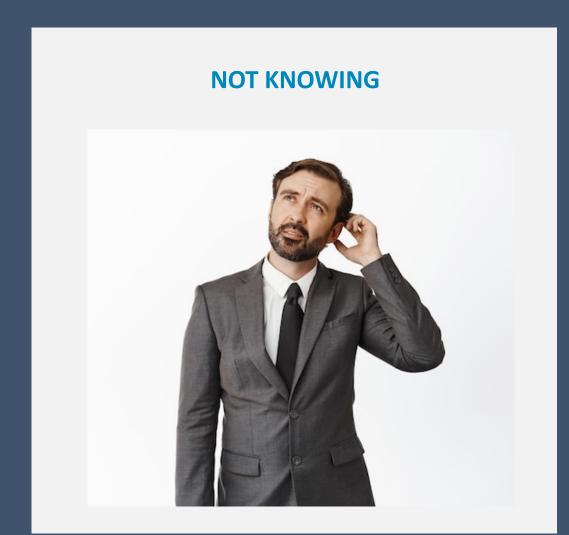

- 9. Vendor capability review and RFI list developed
- 10. Request for Information (RFI) with NDA developed
- 11. Review and Revised Cost/Benefit Analysis
- 12. Sourcing list finalization
- 13. Request for Quotation
- 14. Review and Revised Cost/Benefit Analysis
- 15. Formal Risk Assessment completed
- 16. Selection and Contract

Whew!

Implementation Phase

- 17. Project Team and vendor Data sharing
- 18. Implementation
- 19. Monitoring
- 20. Expansion/Reduction/Modification
- 21. Exit/Sunset

THE RISK..... THEN AND NOW

The Future is Exciting!

Global Paperless Cloud Application Innovation Embracing DIGITAL Change Society TRANSFORMATION Technology Competence
Business Connected
Analytics Opportunities Competence Leverage Integrate

AND CHALLENGING!

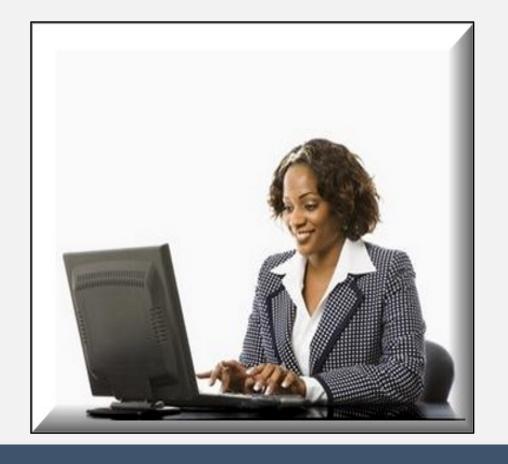

- Evolving Governance Landscape
- Keeping pace with trends and regulations
- Balancing innovation and regulation
- Innovating while complying. Is this feasible?
- How to innovate while being compliant to laws?

Information Overload...... The Hidden Risk

IMPACT LEVEL

Update: Normal Life Disturbed in Paris Due to Protest Against President Emmanuel Macron's Labour Reforms; Trains and Flights Cancelled

According to 'Telegraph', "French riot police fired teargas in Paris and other cities at demonstrators who set cars on fire and smashed windows on the sidelines of nationwide strikes and street protests against President Emmanuel Macron's labour reforms.

Hundreds of trains and flights were cancelled and scores of schools closed their doors in the first protest against the centrist president that has brought together civil servants and railway staff.

Civil servants want better pay and oppose the planned loss of 120,000 jobs by 2022, while employees of the heavily-indebted state-run SNCF rail company are fighting government plans to scrap job-for-life guarantees and automatic annual pay rises."

High

March 23, 2018

Targets Affected: Paris

Guidance

•The impact level has been categorized at 'High' as business operations and normal life has been severely disrupted in Paris and has also turned violent in some places. The protest may continue and further escalate if the government does not come up with appropriate measures. Avoid downtown areas, major roads, parks and government areas where such protests usually occur. Such incidents or demonstrations usually affect major streets and city center points. resulting in traffic issues and commutation problems. Alternatively, work from home option could be provided for those who use public transportation, and stay in places very far off from the office location in order to ensure smooth flow of operations and eliminate downtime.

*Travelers planning for a visit are advised to contact the local government authorities to understand and avoid the routes that are being blocked by the protestors. Supply Wisdom will continue to monitor the situation and alert clients in case of any further undates.

How Do We Get There?

- ✓ Establish a Board Approved Sourcing Strategy Framework
- ✓ Identify and validate Vendors versus Payees
- ✓ What data is involved.
- ✓ Risk Rank/Tier Service Providers
- ✓ Determine what vendors do and where they do it from
- ✓ Who else touches the data in the vendor service.
- ✓ Complete catalogue of Domestic and Foreign regulations
- ✓ Implement a Governance Fora
